

Beispiel für ein initContainer

```
initContainers:  
  - name: copy  
    image: busybox:1.36.1  
    command: ["/bin/sh", "-c", "cp /config/cassandra.yaml  
/config/cassandra/"]  
    volumeMounts:  
      - name: tmp-config  
        mountPath: /config/cassandra/  
      - name: cassandraconfig  
        mountPath: /config/
```
